

MoMen Return

September 22-25, 2016

Our Journey

We shall not cease from our exploration,
And the end of all our exploring,
Will be to arrive where we started,
And know the place
for the first time.

—T. S. Eliot

The **MoMen Return** weekend is a return to where we started. It is an exploration into the four principles of presence. The focus is to delve deeply into the relational next steps of the four chambered heart, the four phantoms of fear and the resulting shadow behavior. Dynamic exercises will be provided to support an inward journey and then the opportunity to share these private stories with each other.

The intention of the weekend is to take advantage of the wooded area of the Pebble Ledges. Living in tents, **we** will have the magic of solitude, the comfort of the surrounding

forest, and the support of the community of other **MoMen**. Woven into the fabric of the weekend are experiences that support personal and interpersonal explorations of **whom are you** as a man in today's world.

When

MoMen Return will occur September 22-25, 2016. Start-up is 9:00 AM on Thursday, Sept 22nd with a brief hello and get to know each other before we build our village and homes for the weekend. One or two small villages will be created depending on how many **MoMen Return**.
